904 Charcoal

905 Cinder

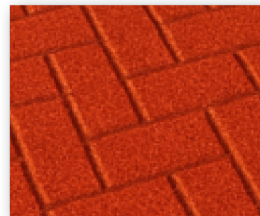

906 Black

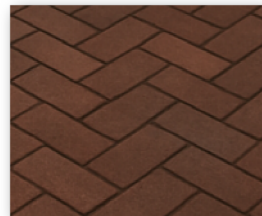

912 Claystone

913 Chestnut

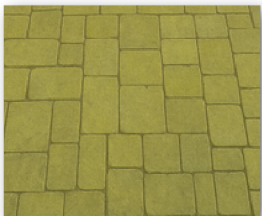

915 Pyre

916 Garnet

917 Tobacco

918 Moss

924 Slate

Please note: Because PaveWave stain is semi-transparent, your paver's original color will show through and affect the final shade—lighter bases look brighter, darker bases look richer. Our charts, photos, and sample chips are a close guide but won't be a perfect match, since factors like surface prep and application method also influence the result. Please plan for some natural variation when choosing your color.
