#### SECTION - 4 FIRST AID MEASURES

Eye Contact Immediately flush eyes with cold water for at least 15 minutes while lifting upper and lower eyelids, Remove

contact lenses if present and easy to do without injury to the eye and continue rinsing. Obtain immediate medical

attention, preferably from an ophthalmologist or Emergency Room

Skin Contact Immediately wash contaminated skin with a nonabrasive soap and plenty of water for at least 15 minutes, Be sure

to remove any contaminated clothing and wash before reuse. If irritation is present or occurs obtain medical

attention

Inhaled Move person to fresh air, if they have problem breathing, show signs of overexposure or feel unwell obtain medical

attention, If breathing is difficult, oxygen or artificial respiration should be administered by qualified personnel

Ingested DO NOT INDUCE VOMITING, unless directed to do so by medical personnel, If person is fully conscious, rinse

mouth with water, and drink small quantities of water, Call a physician, or poison control center, and get medical attention, If victim feels nauseous stop drinking, If vomiting occurs, keep head below hips to prevent aspiration into

the lungs

Important Effects Exposure can / may affect, eyes, kidneys, liver, nervous systems, respiratory, skin

Important Symptoms Symptoms may include, allergic skin reactions, central nervous system depression, liver or kidney irregulatories,

corrosive burns to skin or eyes, allergic asthmatic breathing reactions, neurological disorders

#### SECTION - 5 FIRE FIGHTING MEASURES

Extinguishing Media Not flammable: Use extinguishing media for surrounding fire

Explosion Hazard Not applicable

Hazardous Decomposition Burning or thermal decomposition can produce, hydrogen chloride gas, magnesium oxides

Protective Equipment Use MSHA/NIOSH approved self-contained breathing apparatus and full protective gear

### SECTION – 6 ACCIDENTAL RELEASE MEASURES

Emergency Procedures Warn personnel of spill, Stop spill or release only if it can be done safely, Keep unprotected personnel from

entering the hazard area, Ventilate area

Personal Precautions Follow all safety precautions, Wear Personal Protective Equipment, Do not walk through spill

Protective Equipment Safety Glasses, Gloves, Chemical Apron, Rubber Boots

Containment Use rags, towels, absorbent socks or pads to prevent spill from spreading, Prevent spill from entering the

environment, NOTE: Organic spill kits that contain Floor-Dri, kitty litter, or sand should NOT be used because

Hydrogen Fluoride reacts with silica to produce silicon tetrafluoride, a toxic gas

Clean Up Procedures Neutralize spill with soda ash, lime, sodium bicarbonate, or a spill absorbent specified for Hydrogen Fluoride. With

clean shovel, carefully place material into clean appropriate waste disposal unit. Flush spill area with water, NOTE:

Neutralized Hydrofluoric Acid can still be Toxic, observe all safety precautions

Disposal Dispose of material in accordance with all State and Federal Guidelines and Regulations

### SECTION - 7 HANDLING AND STORAGE
